APPLICATION FOR POST ISSUE PATENT TERM ADJUSTMENT

The following is a statement of facts in support of the application for post issue patent term adjustment.

Applicants have calculated the correct post issue patent term adjustment as 599 days, which was calculated as follows:

The Notice of Allowance was mailed on May 23, 2006. The Tuesday that is 28 weeks after the mailing date of the Notice of Allowance is December 26, 2006. The issue date of the patent is March 13, 2007. The difference between these two dates is 77 days.

Applicant's Issue Fee payment was timely mailed on August 23, 2006, and was received in the USPTO on August 28, 2006. This is a debit of 5 days from the Applicant's patent term. Applicant credit of 77 days – debit of 5 days gives an additional PTA of 72 days.

The Issue Notification mailed February 21, 2007 states that the Patent Term Adjustment is 527 days. This figure does not take into account the additional 72 days to which Applicant is entitled due to USPTO delay after payment of the issue fee, as detailed above. Therefore, Applicant believes that the total PTA to which Applicant is entitled is 599 days.

The patent issuing on this application **IS NOT** subject to a terminal disclaimer.

Applicant has detailed above any circumstances during the prosecution of the present application that may constitute a failure to engage in reasonable efforts to conclude processing or examination of the application as set forth in 37 C.F.R. § 1.704.
